A World of
ART

LET'S START!

ART makes our world a better place. It gives us colour and beauty; it speaks to our feelings; it makes us think. Art is all around us! Art is in our streets, in our homes and in nature. Our lives are full of wonderful creations and fantastic works of art.

- **How often do you draw or paint?**
- **What colours do you like best?**
- **Where could you see these works of art?**

7 EARTH ART

The beauty of our planet is a great inspiration for artists! Some artists paint nature while others use the things they find in nature to create their artwork.

Pebbles

The different colours, shapes and textures of **pebbles** can make simple, yet beautiful pieces of art. Some artists also add wood and leaves to their pebble paintings. The rough and smooth textures of the natural things they use produce a very interesting result.

Sand

How about creating a work of art while enjoying the beach at the same time? The Sand Sculpture Festival in Ostend, Belgium, is the biggest sand sculpture festival in the world! There are about 150 sand sculptures created by 30 artists of 12 different nationalities!

Sand sculptors use buckets, spades and kitchen or garden tools! It's a bit like making a sandcastle when you are a child!

What a pity most sand sculptures get washed away by the sea, but I'm sure making them is great fun while it lasts!

The birds flew around happily. Their dear friend, the dove, was all better and now their feathers were full of amazing colours! The dove herself turned a pale white, because all the colour came out of her. To this day, the dove is a symbol of peace and love. But what about the selfish crow? Well, even though that was a long time ago, crows today are still only one colour, and that colour is black!
